Ads display module for Classifieds Redux component

Display the latest or random or the most popular ads anywhere on your website.

This module is FREE, but it will only work with Classifieds Redux.

Select whether you want the latest (newest) ads, or randomly selected ads or the most popular.

Number of ads to be displayed in the window, if you wish to have more than 1 2 line of ads each increment of 4 will produce another line of ads.

Determine if you want to display horizontally or vertically.

Title text, if left blank no title will display only a bar will show.

Set the titles background color, the text color and font size.

Set the background color, border color, text color and text size for the Ads display.

The thumbnail width and height allow you reduce the thumbnail dimensions to allow more ads to be displayed within the window.

Determine what info you wish displayed.

Do you wish to display All ads or only ads with images.

Set the currency code and symbol for your location.
